## FACULTY DIRECTORY ::

The faculty members bring with them vast knowledge, real life experiences and a hint of future trends in management and business leadership. They use innovative teaching methods in synergy with their research, knowledge and corporate experience to groom the leader in students. The faculty members are thought leaders in their respective fields. The model for the faculty has the portfolio mix of high caliber permanent and visiting faculty. The model ensures that students receive exposure to the latest insights and thinking. Research is an important constituent of any teacher's profile and almost all faculty members at PIMR are actively involved in research and publications in addition to closely guiding student research projects.
