

Chairman's Message

Dear Parents,

At the outset, I welcome you and your child to People's Public School. The school is located in idyllic surrounding amidst seventeen institutions of higher learning and modern hospitals of the People's Group, one of the largest hubs of education and healthcare in Central India which offers unmatched educational opportunities.

In our extensive campus People's Public School stands tall in its own spacious groups, separated from the other institutes of higher learning, the school boasts of a homely hostel facility, a fairly large sports stadium, besides two separate wings for the junior and senior sections.

The People's Group today has a medical college, two dental colleges and professional institutes covering diverse areas such as Engineering, Management, Media Studies, Pharmacy, Paramedical Sciences, Physiotherapy, Nursing, Industrial training etc. Thus a child, once admitted in the school has the option of completing professional education within the campus and embarks thereafter on a well defined career path. In all the institutions, we lay emphasis on all round development of the student with a judicious mix of academic inputs, sports and co-curricular activities. In short, you can rest assured of a bright future for your child.

With Best Wishes

Suresh N. Vijaywargia
